

## FALL GIVES OUT TERMS OF LEASE IN NAVAL OIL LAND

Contract With Sinclair Over  
Wyoming Reserve Calls for  
Work in Six Months.

WASHINGTON, April 25.—With-  
out any explanation, analysis or fore-  
word Secretary of the Interior Fall  
has made public the contract ne-  
gotiated with the Mammoth Oil Com-  
pany, of which H. F. Sinclair is Presi-  
dent, for the development of the  
Naval Oil Reserve in Wyoming.

To-day official and lay Washing-  
ton is a living question mark as to  
what was in the mind of one or both  
the contracting parties when drawing  
the contract as to necessitate the in-  
clusion of an inhibition against cer-  
tain "unlawful interest" contained in  
the Penal Laws of the United States.  
This inhibition, as stated in the con-  
tract, is:

"It is also further agreed that no  
member of, or delegate to Congress  
or resident commissioner after his  
election or appointment and during  
his continuance in office, and that no  
officer, agent or employee of the De-  
partment of the Interior shall be ad-  
mitted to any share or part in this  
lease or derive any benefit that may  
arise therefrom."

So far as the contract itself is con-  
cerned experts who have examined it  
contend that the government is fully  
protected and that it obtains an un-  
usually large royalty in the form of  
oil, gas, kerosene and cash, in view  
of the fact that the Mammoth Com-  
pany assumes the entire financial  
burden in connection with developing  
the field.

The contract is signed by Secretary  
Fall, both for himself and the Sec-  
retary of the Navy, and by H. F. Sin-  
clair, as President of the Mammoth  
Company.

The government reserves to itself  
absolutely all helium contained in the  
gas.  
Within 180 days the company is re-  
quired to begin operations and drill  
not less than twenty test wells. If  
after sixty days tests show that the  
total average production of the wells  
is 20,000 barrels a day construction  
of the pipe line must be begun within  
another sixty days. If the wells do not  
produce this amount, another series  
of test wells is to be dug, and if they  
fail, still another set. The company  
is not compelled to grower than 4,300  
feet in the search for oil.

To protect the Government in the  
matter of royalties the company is  
required to file monthly copies of  
sales contracts and the premises are  
to be always open.

On the termination of the lease the  
Government may purchase all equip-  
ment, machinery and buildings.

## Don't Forget to Set That Clock Ahead One Hour, Sunday at 2 A. M.

Big Railroads Stick to Standard Time, But  
Will Rearrange Train Schedules.

Daylight saving will begin at  
2 o'clock Sunday morning.  
At that hour every one who  
happens to be up is supposed to  
put his watch ahead one  
hour, making the time 3 A. M.  
Others are supposed to make  
their clocks and watches con-  
form when they get up for  
breakfast.

Through the medium of the  
"Subway Sun," the Inter-  
borough Rapid Transit Com-  
pany yesterday announced all  
of its train dispatchers and  
other employees will be told to  
put their watches ahead. This  
means the rush hour and thea-

tre hour service, such as it is,  
will be shifted forward.

All of the big railroads with  
terminals in this city, it was  
said yesterday, will stick to the  
Standard Time as they always  
have done, but it will be nec-  
essary to rearrange the train  
schedules in many respects to  
suit the convenience of the  
public which will change its  
working and pleasure seeking  
hours.

An injunction is sought in  
Philadelphia to prevent the  
daylight saving ordinance  
there from becoming ef-  
fective on the ground that it  
is in conflict with a law passed  
in 1887 fixing standard time for  
Pennsylvania.

will be: Kusberg, Manthow and An-  
thones, singles; Gale and Lombard, dou-  
bles.

**RUBLE NOTE ISSUES GET  
INTO ASTRONOMICAL FIGURES**  
MOSCOW, April 25.—While pri-  
vate brokers are offering more than  
4,000,000 paper rubles to the dollar  
and food prices are soaring propor-  
tionately, the Government has an-  
nounced a new issue of money in  
probably the largest denominations  
in the world. The notes will be in  
50,000,000 and 100,000,000 rubles, and  
will be redeemable in 1924.
